

To whom it may concern,

The report ending December 31, 2009 (Year End) was filed late on February 2, 2010. We have requested a response from our vendor which follows below:

Due to technical error, the client (American Dietetic Association, C00143560) was not able to file directly from the Software. The client had submitted the report to us to file on behalf of them on 1/28/2010. While attempting to correct the error, American Dietetic Association Political Action Committee report was inadvertently overlooked and not filed as instructed.

Sincerely,

Paul Mifsud
